for the Philosophy,
Science, and Art
of Chiropractic

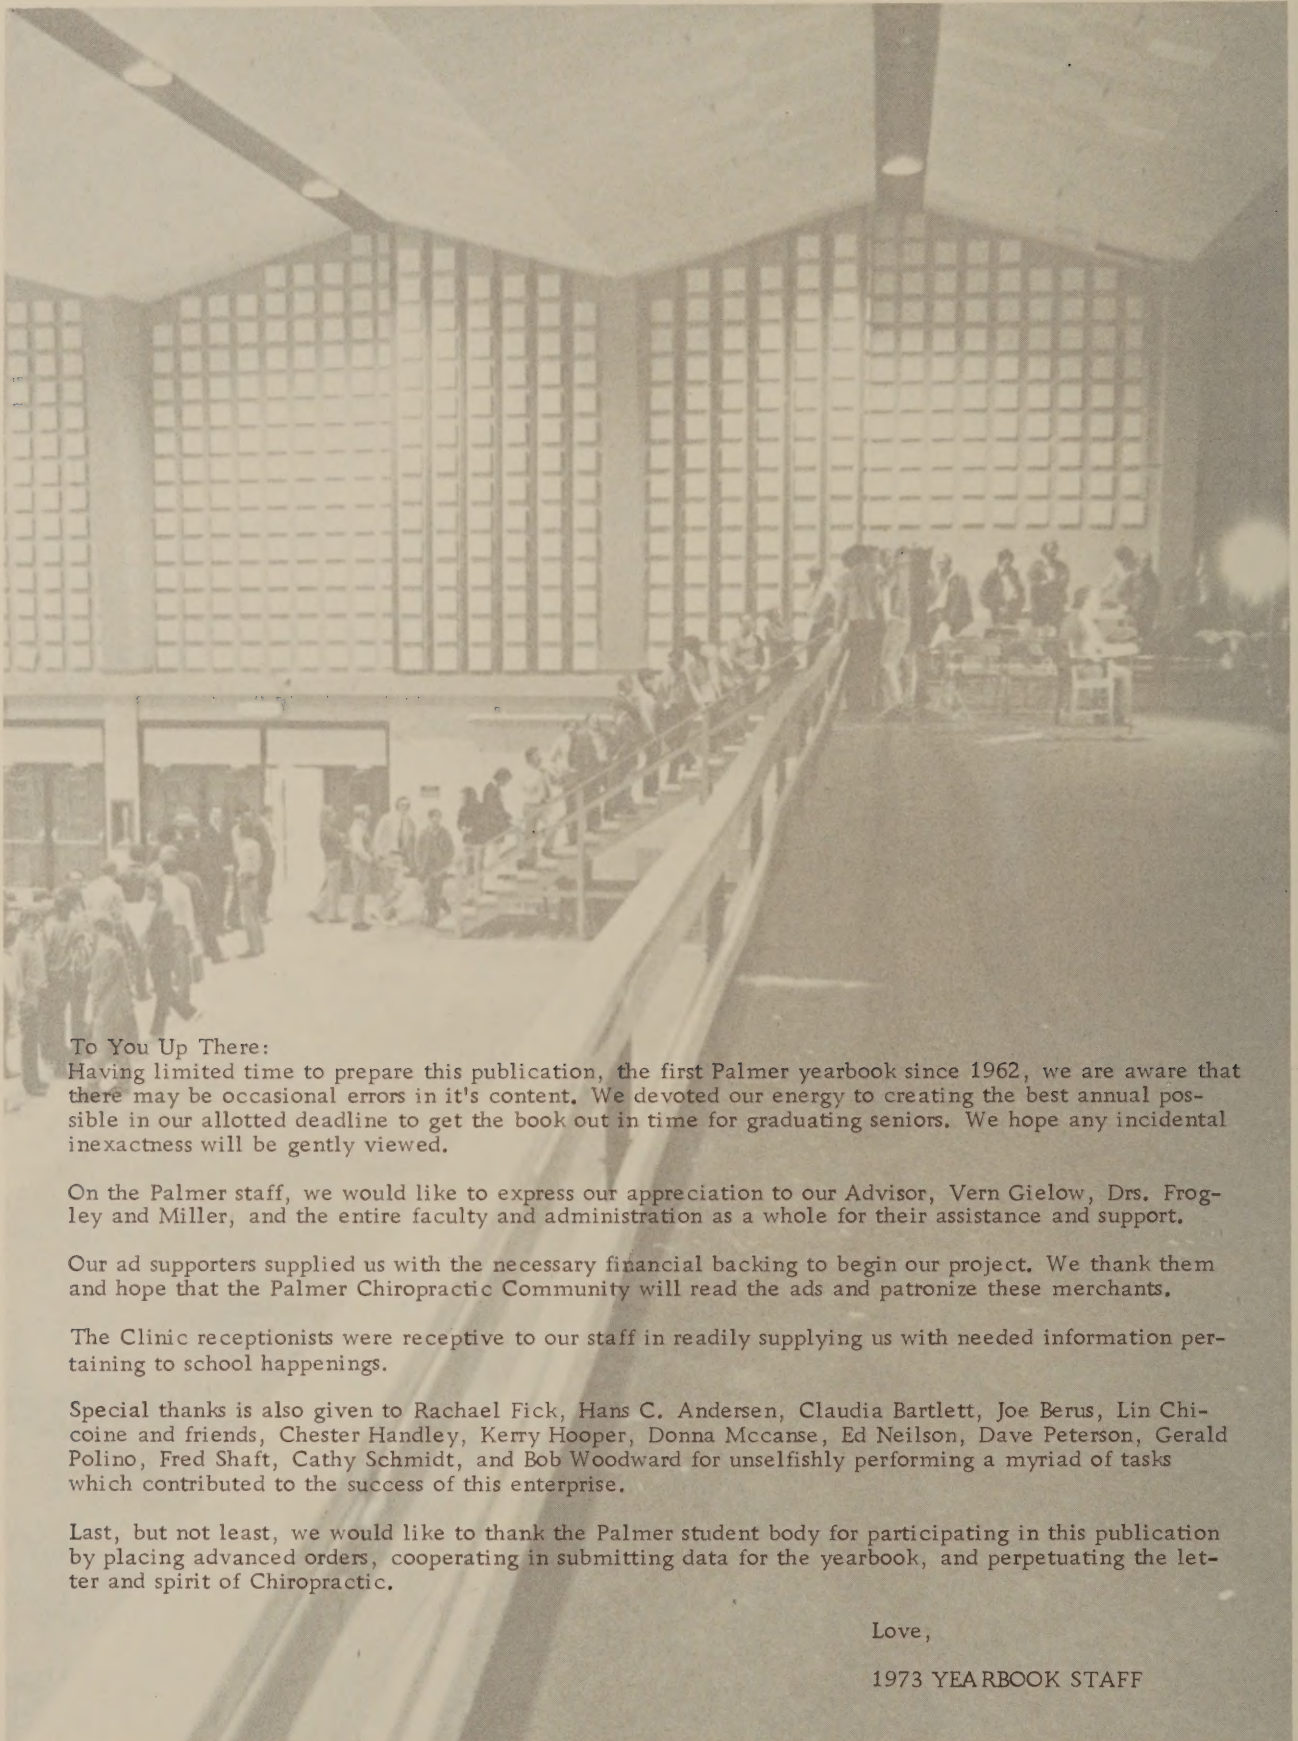

by and for the students of

Palmer College of Chiropractic

This annual is respectfully dedicated to Dr. D. D. Palmer, much better known as Dr. Dave, grandson of the founder, born on the campus, and raised among the faculty and students, Dr. Dave assumed the presidency of Palmer College in 1961. He has accepted the responsibility of transforming the scientifically-proven chiropractic service into an image of academic and public acceptance, devoting his efforts to the perpetuation of chiropractic.

To You Up There:

Having limited time to prepare this publication, the first Palmer yearbook since 1962, we are aware that there may be occasional errors in it's content. We devoted our energy to creating the best annual possible in our allotted deadline to get the book out in time for graduating seniors. We hope any incidental inexactness will be gently viewed.

On the Palmer staff, we would like to express our appreciation to our Advisor, Vern Gielow, Drs. Frogley and Miller, and the entire faculty and administration as a whole for their assistance and support.

Our ad supporters supplied us with the necessary financial backing to begin our project. We thank them and hope that the Palmer Chiropractic Community will read the ads and patronize these merchants.

The Clinic receptionists were receptive to our staff in readily supplying us with needed information pertaining to school happenings.

Special thanks is also given to Rachael Fick, Hans C. Andersen, Claudia Bartlett, Joe Berus, Lin Chicoine and friends, Chester Handley, Kerry Hooper, Donna Mccanse, Ed Neilson, Dave Peterson, Gerald Polino, Fred Shaft, Cathy Schmidt, and Bob Woodward for unselfishly performing a myriad of tasks which contributed to the success of this enterprise.

Last, but not least, we would like to thank the Palmer student body for participating in this publication by placing advanced orders, cooperating in submitting data for the yearbook, and perpetuating the letter and spirit of Chiropractic.

Love,

PALMER COLLEGE

OFFICE OF THE PRESIDENT

1000 BRADY STREET
DAVENPORT, IOWA 52803

PRESIDENT'S MESSAGE

The spirit of enthusiasm manifested by the young men and women responsible for this yearbook is a most gratifying indication of the forward thrust of Palmer College of Chiropractic.

With the largest student body in many decades, the world's first and foremost chiropractic college is meeting the tremendous challenges the future holds. With an expanding population throughout the world, and increasing awareness of the need for health through natural means as indicated by our profession's inclusion in Medicare, chiropractic is moving ahead, spearheaded by the young men and women pictured in this publication.

I wish them well, just as I wish each and every graduate of Palmer College the very best in the years ahead. To be of service to mankind is a reward unto itself. . . but to pursue that dedication with enthusiasm and vigor brings with it recompense which is unparalleled. The future of our profession is in your good hands!

A HERITAGE OF

CHIROPRACTIC TECHNIQUE

CHIROPRACTIC'S INQUIRING MIND

READING AND RELAXATION

A TRADITIONAL GATHERING PLACE

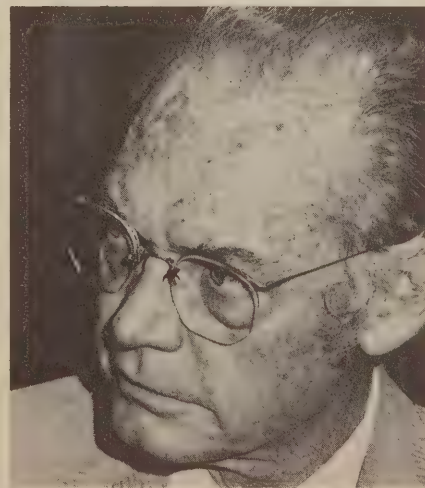

The teacher is much like the farmer, who plants seed that he may harvest a crop. The task is a noble one. To endeavor to enlighten the minds of men by sharing one's knowledge. But the job of the teacher like the farmer is limited to tilling the soil and planting the seed.

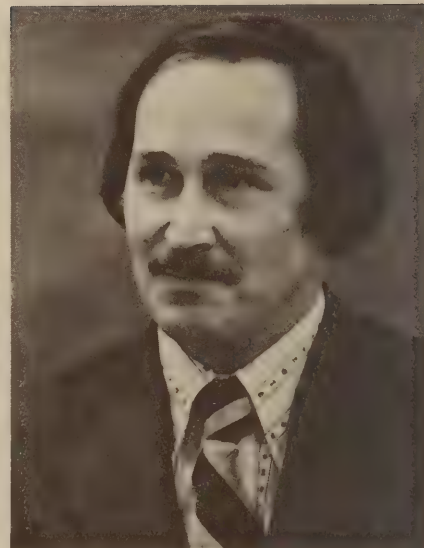

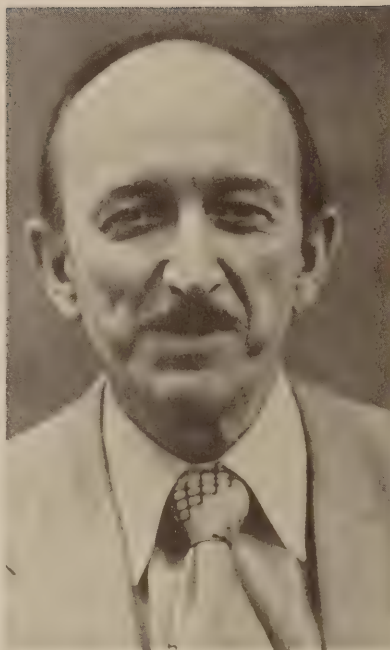

Once done, the responsibility for growth and development rests entirely within the seed and the soil. It is our choice as students to accept the labor of these men and women as one of love and be nourished by it or to turn away with deaf ear and closed mind, barren as the desert sand.

FACULTY ADMINISTRATION

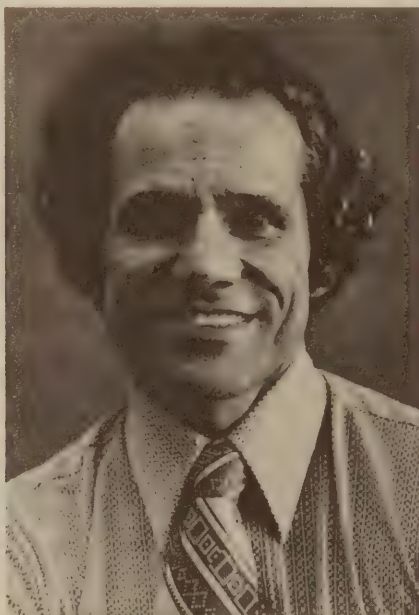

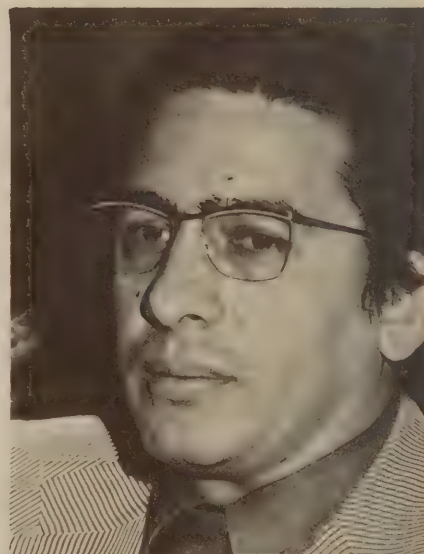

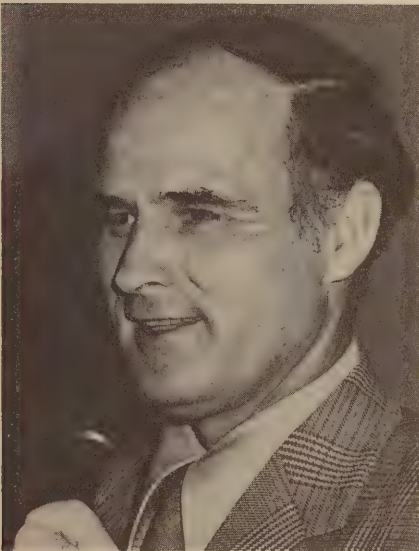

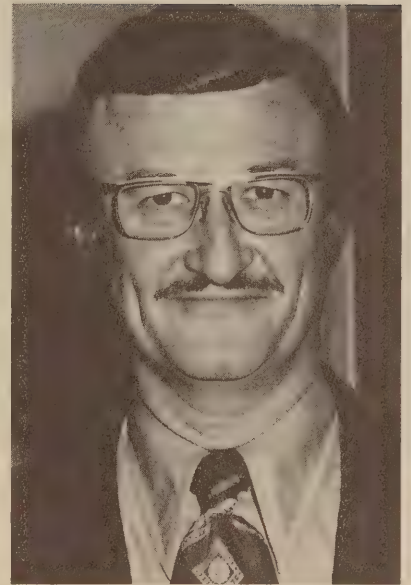

TOP TO BOTTOM (L TO R): H. Ronald Frogley, M.A. , D.C. , Ph. C. , Executive Vice President, Professor of Neurology; John L. Miller, B.A. , D.C. , Academic Dean, Professor of Anatomy and Technique; Galen R. Price, D.C. , Ph. C. , H.C.D. , Dean of Faculty, Professor of Philosophy; Kenneth H. Cronk, M.S. , D.C. , Ph. C. , H.C.D. , Administrative Dean, Professor of Chemistry and Physiology; Elmer L. Crowder, D.C. , Ph. C. , Vice President of Development, Director of Alumni; W. Heath Quigley, B.S. , D.C. , Ph. C. , Dean of Continuing Education, Professor of Diagnosis.

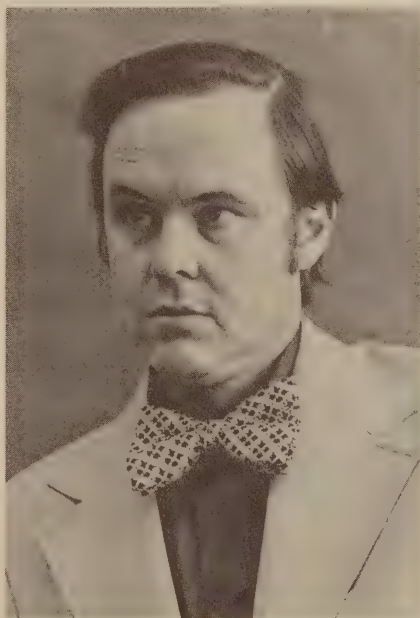

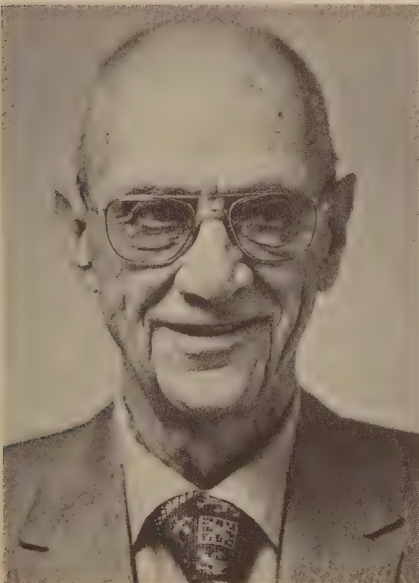

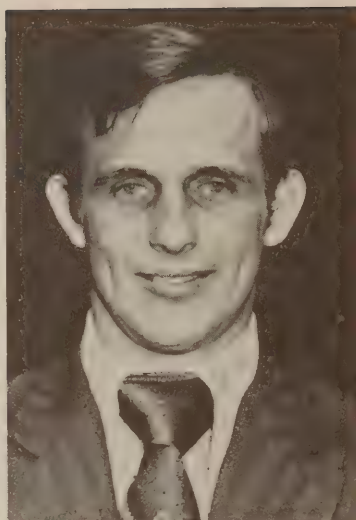

TOP TO BOTTOM (L TO R) Martin E. Jenness, B.A., M.S., Ph.D. D.C. Professor of Research Peter A. Martin, D.O., D.C. Associate Professor of Pathology Virgil V. Strang, D.C., Ph.C. William M. Smith, B.S., D.C. Professor of Diagnosis and Pathology Guy L. Barnett, D.C. Ph.C. Associate Professor of X-Ray Donald P. Kern, D.C., Ph.C. Associate Professor of Technique Patrick T. Keefe, D.C. Associate Professor of Diagnosis.

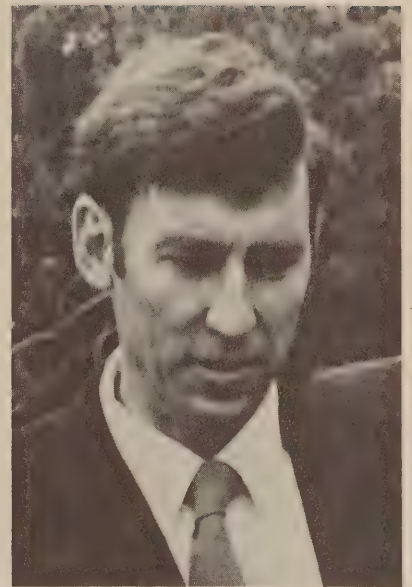

TOP TO BOTTOM (L TO R) Gilbert O. Schmiedel, D. C. Associate Professor of Anatomy George A. Walker, D. C. Assistant Professor of Physiology of Anatomy R. Douglas Baker, D. C. Assistant Professor of Anatomy Leon R. Coelho, D. C., Ph. C. Assistant Professor of Chemistry Howard T. Silverstein, M. S., Ph. D. Assistant Professor of Chemistry Santo F. Pullella, Julius Millman, B. S., D. C. Associate Professor of Diagnosis.

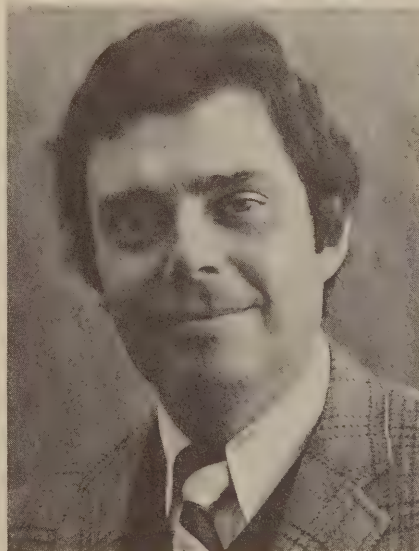

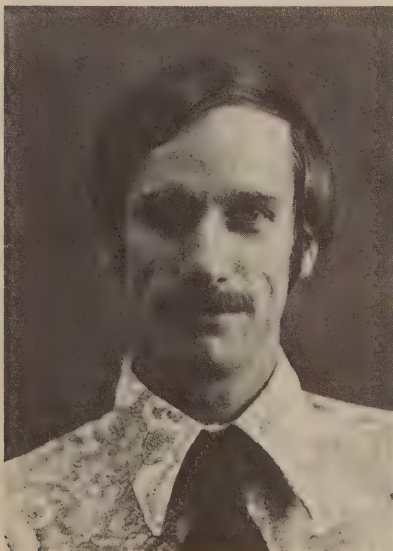

TOP TO BOTTOM (L TO R) Marjorie Johnson, A.A. D. C. Instructor in Technique Homer C. Adams, B. S. , D. C. Instructor in Technique Gerald A. Abagglen, D. C. Assistant Professor of X-Ray Maxine McMullen, R. N. , D. C. Instructor in Pathology Clyde Castleberry, M. S. , D. C. , Instructor in Technique Steven D. Wild, D. C. Assistant Professor of Principles and Practice Dennis Abegglen, D. C. Instructor of X-Ray.

Bemis, B.A., Assistant Instructor in Chemistry; Dana
Lewis, B.S., Assistant Instructor in Chemistry; John
Black, A.S., Assistant Instructor in Pathology.

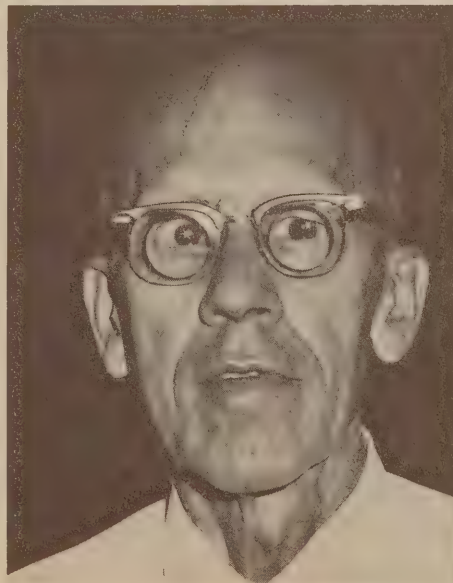

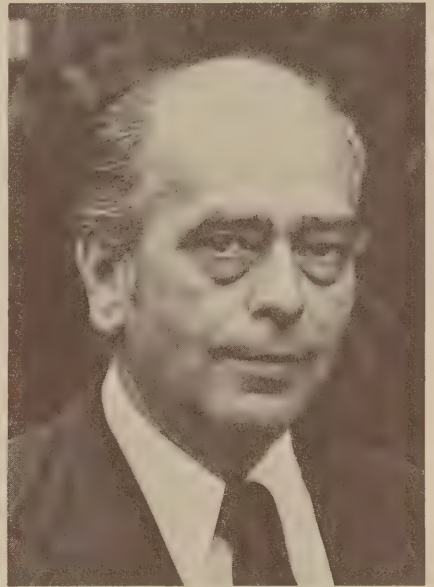

TOP TO BOTTOM (L TO R) Richard VandeVeegaete, B.A., M.A., Ass't. Instructor of Terminology; J. Robertson, D.C., Instructor of Diagnosis & Basic Science; Gene. Long, M.T., Ass't. Instructor of Chemistry & Bacteriology; Leona Long, Director of Chiropractic Assistants; Flavian Santavicca, B.S., M.Ed., Ass't. Instructor of Chemistry & Bacteriology.

TOP TO BOTTOM L-R: W.B. Gehlsen, B.S., Treasurer; R. P. Fick, Director of Student Services; Robert Mast, Assistant Director of Buildings and Grounds; V. F. Gielow, Director of Public Relations; L. A. Mauget, Secretary; R. F. Volkmann, Director of IBM Operations.

Christy Lawrence, secretary to Dr. Frogley.

Grace Kayser (LEFT) and Mary McCubbin, secretaries to Dr. D. D. Palmer.

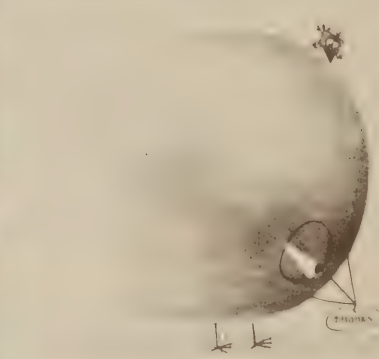

Cathy Koehne, Head Librarian.

Radine Turner (LEFT) and Admissions secretaries Radine Turner (LEFT) and Chris Reed. Not shown; Karen Littrel and Maxine Davis.

SERVICE WITH A SMILE

SENIORS

Each of us has our own form of self expression - whatever it may be. This opens new doors of awareness with new visions of what may lie beyond.

Through our own vision, each of us has chosen to be here, now. With photography we get a chance to look at things that may have passed us by. Time, the big cosmic lie it is, is nonexistent, and an instant becomes an eternity. We all have our own pictures to look at and we all look at them in a different way.

CLINIC

CLINICAL EXCELLENCE

The Clinical Excellence Award is given quarterly to a Student Doctor of Chiropractic based on the following criteria: grade point average, number of patient visits, quality of record keeping, professional conduct, patient management, and quality of Chiropractic care.

In June of this year the award was given to Bob Cantor (pictured at left) who set a record by giving 3,600 adjustments. Don Hudson broke the all-time record by delivering a grand total of 4,441 adjustments and, consequently, receiving the Clinical Excellence Award. Don is pictured above accepting the award from Dr. L. R. Coelho.

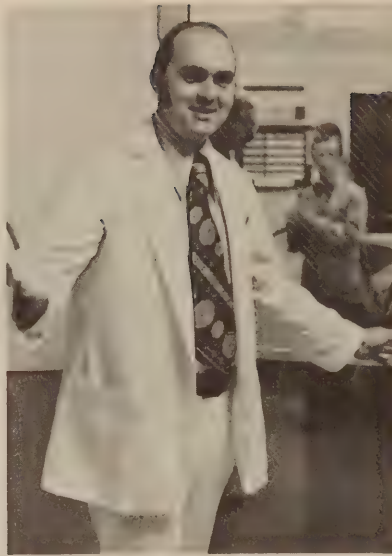

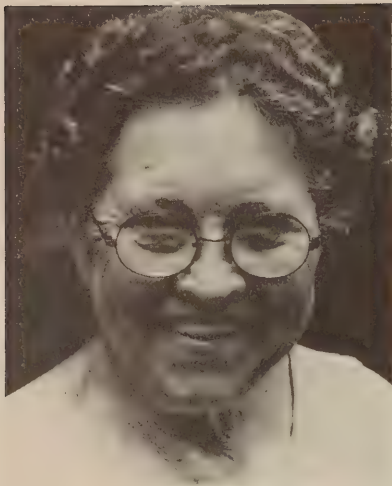

JOHN CONNOLLY AWARD

The John Connolly Award is administered bi-annually to a senior student who has demonstrated excellent performance in his academic and clinical studies. The Award is sponsored by the Delta Sigma Chi Fraternity. To the right, Bob Cantor poses with his Award. BELOW, Pat Laufenberg proudly receives his award from Dr. Palmer.

The Chiropractic Assistants Program of Palmer College of Chiropractic educates us to handle all responsibilities for the Chiropractor; giving him the opportunity to devote all his energy to the spine and health.

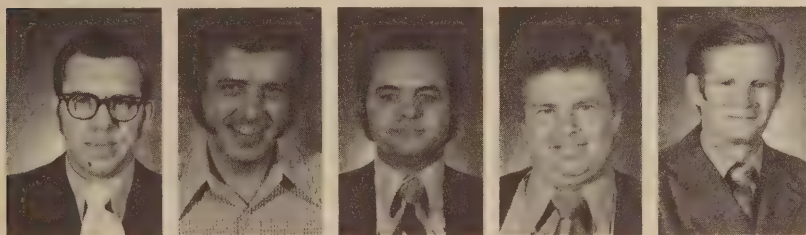

The training has taught much; but of high priority in our minds is what we can give of ourselves to create Hope within the heart of the seeker of health.

ORIENTATION ...

HOMECOMING 1973

Sunnie O'Brien accepts 1973 Homecoming Queen award from Dr. Dave Palmer, as Terry Wiley, SAC president looks on. Her court FROM LEFT TO RIGHT INCLUDE: Ruth Ann Reid, 1972 Homecoming Queen, Nancy Lukken, Jeanette Garrett, and first runner up, Eileen Isom.

1972-1973 NANCY LUKKENS

The Homecoming festivities at Palmer College of Chiropractic are traditionally opened with the crowning of the Homecoming Queen.

The 1972-73 Homecoming was presided over by Nancy Lukkens, in 1973 Sunnie O'Brien was crowned Homecoming Queen to reign for the 1973-74 year.

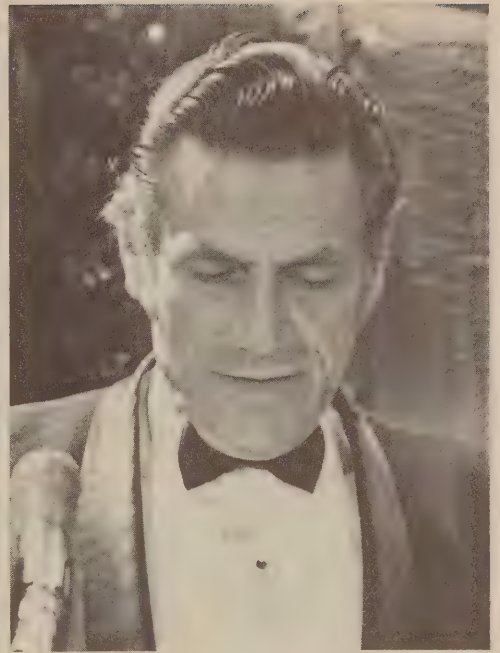

1973-1974 SUNNIE O'BRIEN

ORGANIZATIONS

Due to the varied backgrounds and geographical locals in the world, that people here at Palmer come from, our college has often been called the melting pot of Chiropractic education. A melting pot, though, is a vessel or container in which the individual metals are heated until they melt and run together losing their

uniqueness in a hodgepodge of mottled hues.

Not so at Palmer. The Fountainhead of Chiropractic is the furnace that heats and forges and tempers the metal from which we are made, preparing us for service!

It was with great interest that the S. C. met with Mr. Wonder Haar, Univ. of Missouri and Dr. Gehl of Logan Chiropractic College this September. With the help of these men, Logan recently received certification through the Office of Education of H. E. W.

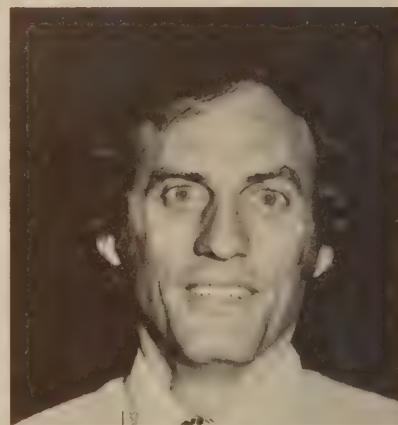

Mr. Vonder Haar and Dr. Gehl informed the S. C. of procedures necessary to follow to receive certification so PCC students will be aware of FACTS--not rumors-- when procedures are begun for PCC's certification.

Mr. Vonder Haar and Dr. Gehl were open with the students and the meeting benefited all. They have indeed won the support of the PCC Student Council for their efforts. They are due a great deal of thanks.

STUDENT COUNCIL

OFFICERS (L TO R): Phil Sorota, Treasurer; Cathy Riekeman, Secretary; Les Wise, President; Doug Nordstrom, First V.P.; J. Douglas Miller, Second V.P.

The objectives of the Student Council are to represent the members of the Student body, to provide for their welfare, and to maintain and enforce a system of self-government by the students.

Membership of the Council is comprised of one elected representative or his alternate from each class. The remainder of the Council includes the Executive Board elected by the student body and the immediate past president of the Student Council.

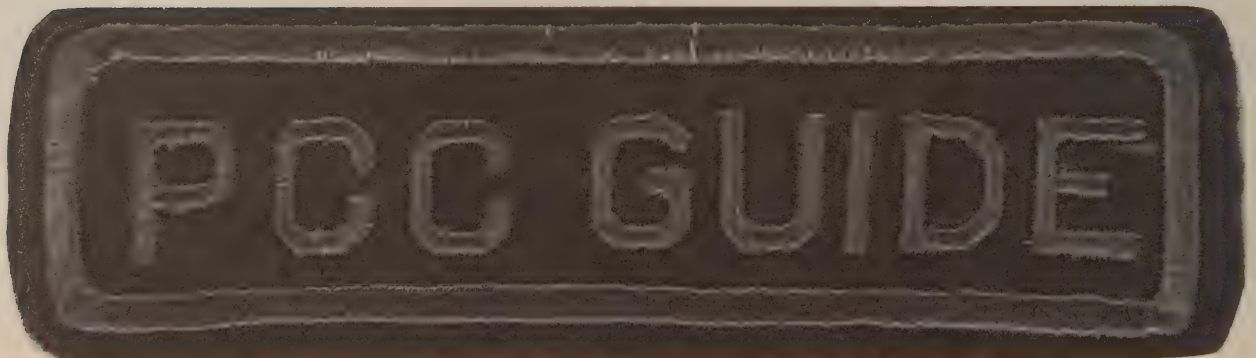

STUDENT COUNCIL, AROUND THE TABLE FROM L TO R: Fred Shaft, John Andre, Roger Hulsebus, Aubrey Friedensberg, Dale Kronenberg, Ron Lee, Paul Fulk, John Black, Charles Zemo, Doug Gates, Dr. G. O. Schmiedel, Jim McMillen, Phil Sorota.

CAMPUS GUIDES

BACK ROW (L TO R): Dennis Austin, Dennis Long, Bill Pickett, Ron Warning, Bill Blackman, Doug Nordstrom, Dave Mann, Dan Randazzo. FRONT ROW: Pat Arthur, Marilyn Gulickson, Mary Ruebbelke.

The Campus Guides Organization was founded in 1964 by Dr. David Palmer for the specific purpose of promoting Chiropractic to prospective students, interested laymen, and inquisitive guests. The Campus Guides are highly motivated and concerned students, and are selected from the student body to present a sincere welcome to Palmer College of Chiropractic.

STUDENT ACTIVITIES COMMITTEE

S.A.C. has provided several hours of entertainment for the Palmer Student body this year. Shortly after the installation of new officers in April, a bowling party was staged where more than 1100 games were bowled and 200 pizzas were heartily consumed by Palmer students and their families.

The approaching summer break was celebrated at S.A.C.'s "June Jive", held in the Anton Meister Auditorium with entertainment by Inside Front.

The historic Mississippi was the scene for the July function--moonlight riverboat cruises on the Julie II. On the lower deck there was entertainment by Life and Don Lyle's Trio.

Student Homecoming marked the culmination of six months of diligent preparation by members of S.A.C. The morning speakers on chiropractic research were both informative and provocative. They were followed by the Homecoming Queen's coronation ceremonies, officiated by Dr. Palmer; then, it was out to the picnic grounds. The all-school picnic at Scott County Park was filled with lots of goodies to eat, refreshments to drink, games to play, and prizes to win. The Powder Puff Rugby game was the highlight of the afternoon, with the open air dance the main event of the evening. The grand finale was the evening fireworks which decorated the summer sky. S.A.C.'s events are sponsored for you--the PCC student.

FRONT ROW (L TO R): Moses Diaz, Leonard Edwards, Terry Wiley, Steve Roberts, Robert Crouch. MIDDLE ROW: Lin Chicoine, Bonnie Baclawski, Jeanette Garrett, Eileen Isom, Susan O'Brian, Joani Weber, Sheryl Braafhart. BACK ROW: Rich Livernois, Jim Culveyhouse, Butch Loofbaro, Jerry Berneathy, Gary Van Skyhock, Bill Coco, John Andre, John Willis, Ralph Love.

"The object of the organization shall be to promote social and mental culture, to inculcate and strengthen a fraternal spirit among its members, and to develop the science of Chiropractic. To serve as a welcoming committee to all new women students who come to Palmer College of Chiropractic, to imbue all members thru a deeper study of the philosophy of the science - thus becoming an intricate part for the protection and preservation of Chiropractic for posterity."

SORORITY PROJECT

Gift packets for all registering students were relieved of all aspirin as a service project by the Sorority sisters. No headaches in this crowd!

Bahá'u'lláh

the *Glory of God,*
teaches

“The powers of the sympathetic nerve are neither entirely physical nor spiritual, but are between the two. The nerve is connected with both. Its phenomena shall be perfect when its spiritual and physical relations are normal.”

“A cure of physical disease is very easy, but the cure of spiritual disease is very difficult. For example, if the spiritual health is afflicted with the love of the world, spiritual medicine must be given. These medicines are the advices and commands of God, which will have effect upon it.”

COURTESY of PALMER BAHÁ'Í CLUB

Chiropactic Honor Society

The Pi Tau Delta was organized in 1956 by the students of the Palmer School of Chiropactic as the Chiropactic National Honor Society.

The late Dr. Donald O. Pharaoh was the founder of the Pi Tau Delta and served as the faculty advisor.

Dr. Pharaoh made it known before his death in 1967 that he wanted Dr. G. O. Schmiedel to assume the position of faculty advisor.

The objective of the society is to better Chiropactic both in the schools and the field. It is hoped that a closer relationship between field and school can be developed because of this.

A student must maintain an accumulative grade point average of 3.5 to be eligible for an invitation to become a member of the Pi Tau Delta. However, other subjective criterion is used in determining the acceptance of a student. There are no honorary memberships extended.

The Pi Tau Delta Chiropactic Honor Society is constituted similar to the National Honor Society OKD (Omega Delta Kappa) which was the first National Honor Society, founded December 3, 1914 at Washington and Lee University.

TOP ROW (L TO R) Donald C. Warner, Edwin St. John, Daniel Schlueb, Charles Walter Michael Nielsen, Glen Desrosiers, John Black, Craig Stevens, 2nd ROW: Roger Van Syog, Ola Ottem, Ronald H. "SINGING CHIROPRACTORS"

Palmer College of Chiropractic "Singing Chiropractors" is a group of men comprised entirely of Chiropractic students. The main function of the Singing Chiropractors is to spread the voice of Chiropractic through song. This group is the largest of its kind in the largest Chiropractic college in the world. They have made many local T.V. appearances, traveled to Naples, Florida and Louisville, Kentucky and attended many state conventions in Iowa, Wisconsin, Illinois, and Kentucky. The experience gained as a member of the "Singing Chiropractors" is invaluable.

GROSTIC CLUB

The Grostic Technique is chiropractic is an exact system of X-Ray analysis and subsequent adjustment of subluxations. It is a mathematically precise, specific, nontraumatic, upper cervical method. The Grostic Club concerns itself with the research conducted over the last 37 years by Drs. John Grostic Sr., John Grostic, Jr., and Ralph Gregory.

The Grostic Club holds regular meetings on campus and maintains an open line of communication with practicing Grostic chiropractors. In view of the interest of the chiropractic student in this technic and the success of the Grostic technic in the field, it is felt that the Grostic Club is an integral part of the education of the chiropractic student.

QUO VADIS

I am a chiropractor. I live and breathe chiropractic. In one way or another, it consumes my thoughts, waking or sleeping. My wife is also a chiropractor. My children are healthy as a result of chiropractic. I believe that the "God within" can heal all DIS-EASE whether physical, mental, or spiritual. My best friends are men who believe as I do that chiropractors should be first in the healing profession, not limited therapists, following meekly in the well-grooved path of the medical profession.

My desire is to distribute information throughout the world about Palmer's Law of Life, to witness its acceptance, and provide service where needed.

Through the years coercion and ridicule have intimidated chiropractors into hiding their lights under a bushel. Man has always sought means to make his life easier, especially if he is led to believe the easiest way is the best way...for him. All men want acceptance and recognition. Thus it is easy for material desires, which satisfy the ego, to overshadow a more basic need...dedication to a higher cause that brings spiritual fulfillment.

There are many in our profession who are thirsty for the full message of chiropractic. Unknown to these countless thousands of sincere, dedicated chiropractors, secret conspirators control the profession through ridicule and distortion of facts. These conspirators would convince us that the "scientific approach" to chiropractic is the only approach acceptable to the public community, the professionals, the legislatures. They would have us sacrifice the very essence and *raison d'être* of chiropractic—the knowledge of and faith in the life principle as the firm foundation upon which the scientific discipline rests—for the alleged hollow victory of public acceptance. They are propelling the profession down the path as medical imposters.

Their central theme is the cry for "unity". By unity, they mean a situation in which they want no interference with their plans to remove the Life principle philosophy from the doctrine of the chiropractic profession and consequently amalgamate chiropractic with medicine as a limited member of the medical team.

This, of course, is tantamount to removing from the Christian religion the divinity of Christ, reducing the Christian faith to nothing more than

a set of rules for sound human relations. What is Judaism without the Law of Moses? Buddhism without Buddha's precepts. The Moslem faith without Mohammed? Or our form of government without the Constitution and The Bill of Rights? Every great movement or idea has had its basic principles without which it was nothing. So it is with chiropractic. The Life Principle is the heart of the matter.

The story of Christ and His confrontation with Satan is told in almost every language and serves as an example for all those who are faced with decisions which require self-denial and courage. When Christ was led by the Spirit into the wilderness, He was met by Satan who promised Him all the kingdoms of the world if He would compromise by bowing down to him. In other words, Satan was saying, the world would be Christ's if He would cooperate with the power structure, meet worldly demands and give up His true life purpose—He could obtain the greatest worldly success: public acceptance, prestige, social recognition, financial security. But Christ's principle was to bow only to the will of God. Though all but a few of His followers deserted Him and He was finally crucified, Christ rose again. His ministry spread throughout the world. He would not compromise, and we chiropractors dare not compromise.

Many times during their careers, the vast majority of chiropractors have met with frustration. There are so many unanswered questions. Why was there never an organized campaign to inform business, political, and professional leaders of the chiropractic doctrine? Why was a national campaign of true merit never organized to propound to the public facts about chiropractic's outstanding benefits? Why weren't we chiropractors leading the ecological movement, when we have emphasized for decades the necessity of such action? Why hadn't we, as a profession, made an all-out effort to declare drugs dangerous, both pushed and prescribed? What happened to our leadership against massive flouridation of public utilities, mass immunization?

The failure of the profession to assert itself in these crucial areas has long been a puzzle to many. The pieces begin to fall into place, however, when officials of the various chiropractic organizations and groups issued their infamous White

Paper in answer to HEW's biased and deliberately distorted image of chiropractic. It became apparent that there was a double standard in the profession and that the desire for personal, social and professional acceptance far overshadowed dedication to the truth of the chiropractic philosophy and its scientific discipline. The inactivity of the past was suddenly seen in a new light.

In the absence of a well-formulated, all-chiropractic answer to the HEW statement, those preparing the White Paper took the most available way out and quietly removed the basic and innate ideas of chiropractic which support the discipline of the profession and substituted for them basic and innate ideas of medicine. Dissenters were merely swept aside in the tide of events. The work of the conspiracy was now complete. They had accomplished their purpose, the profession was now a limited therapy. Furthermore, now that the emasculation of the profession has begun, its practitioners become subject to the law of cause and effect, and chiropractic ideals will topple like dominoes in a row—unless those of us who believe in its principles take a stand—NOW.

The potential danger and far-reaching ramifications of the position taken in the White Paper have not been debated within the profession for fear of arousing resistance from the sleeping chiropractors. The undercover conspiracy is content, for history is replete with the surrender of men with ideals who seldom find the opportunity to turn back once the crooked road is taken. Those who approve of the White Paper are certain that chiropractors will accept partial recognition, partial acceptance, and partial remuneration from government funds, rather than make the struggle necessary to achieve full recognition, total acceptance, liberation, and ultimate victory for the profession and the people.

Certainly, there was doubt in the minds of many of the men who put their stamp of approval on the White Paper. These doubts have been reflected in many private conversations with men who begrudgingly participated in this Appomattox of chiropractic. They express great concern about the stipulations of the White Paper. They feel far too much has been surrendered of the truths basic to chiropractic. Unfortunately, the momentum of the conspirator's cry

LIFE FELLOWSHIP OF DAVENPORT

for "unity at all costs" was too great for any disagreement with the White Paper. Dissenters would have been the victims of wrath and ridicule. The time was ripe for submission. Principled chiropractors had no dependable defenses. Their Maginot line crumbled, and, like France, chiropractors could no longer call their land their own.

I am for unity. Who could be against unity on principle? I praise all those who have worked so diligently through the years for the advancement of chiropractic—but I am diametrically opposed to this medical unity as stipulated in the White Paper.

I am for the immediate adoption of the true, principled concepts of D. D. and B. J. Palmer and the early pioneers whose doctrines should be clearly defined, so that all chiropractors can "know thyself".

I am for the immediate recall of the White Paper and the issuing of a revised edition which contains an all-chiropractic answer to the HEW report, leaving no doubt as to the principled position of chiropractic in the field of natural healing.

I advocate a national advertising campaign based on our principles as set forth in the revised White Paper designed to educate and motivate the public to the benefits of chiropractic.

I am in favor of a national campaign against drugs whether pushed or prescribed, against mass immunization without the consent of the individual, and against mass medication of the public water supply.

We as chiropractors need apologize to no one. We are licensed by the legislatures of 48 states. We have sufficient training, a heritage which may be pointed to with pride, a wealth of invaluable data, and fifty-million healthy people to attest the benefits of our profession. We must not conform to what other groups believe our profession to be—we must, rather, instruct them about what we know it to be.

Consequently, I am for full financial, professional, legal, and social freedom—NOW.

Shall we be limited medical therapists or chiropractors? *Quo vadis...* whither goest thou? §

(When the time is right, all the local, state, and national political leaders must be informed that there is new wine in the bottle of chiropractic.

Throughout the existence of the Life Fellowship of Davenport we have stood for that which the Chiropractic profession has held near and dear since its inception into this world.

Our thoughts, hopes, dreams, and aspirations are found in this article by Dr. Sid Williams. This is our reason for being here, this is our purpose. "Thanks for everything, Dr. Sid."

Life Fellowship

TRANSCENDENTAL MEDITATION AT P.C.C.

By John Andre and Greg Kingsbury

Universal and Innate Intelligence are basic to Chiropractic philosophy which acknowledges the Innate Intelligence within every person as a particle of the unbounded Universal Intelligence. Transcendental Meditation also recognizes this structuring of life, emphasizing the necessity of coordinating the Universal Infinite aspect of life and man's finite manifestation in order to minimize disharmony and suffering.

The goal of T. M. is to bring about total harmony in all areas of life by integrating Innate Intelligence and Educated Intelligence--mind and Being. The practice of T. M. accomplishes this goal through the relief of psychological and physiological stress. Expanded aware-

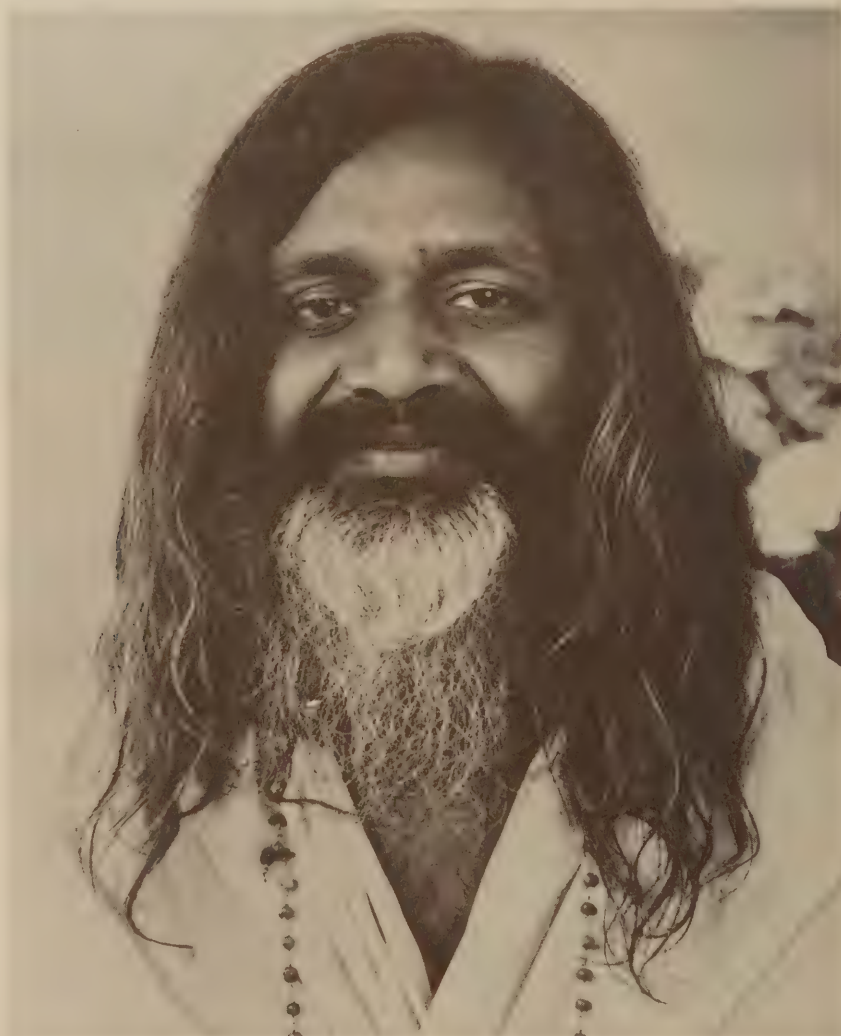

ness causes one to become more familiar with the Universal and Innate aspects of life.

Dr. B. J. Palmer wrote that the Chiropractor needs to get onto Innate. T. M. fulfills this need.

The T. M. Club extends it's gratitude to Maharishi. Due to his unceasing efforts, T. M. is available in the U.S. and throughout the world. Maharishi left the Himalayas 14 years ago with a way to Self Realization. Today, centers of T. M. and the Science of Creative Intelligence exist in every major city and on many campuses throughout the world.

GOD

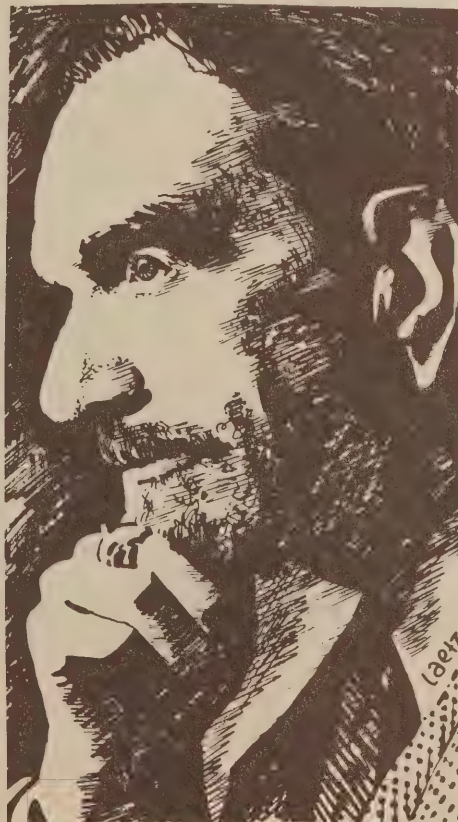

PATIENT CHIROPRACTOR

THE SPINAL COLUMN

The SPINAL COLUMN was formed by those who saw a mass tendency in our beloved profession to forget that one thing that makes Chiropractic different from all other healing arts, and allows it to work, it's Philosophy. Students at Palmer College, where more philosophy is taught than any other Chiropractic school in the world, saw that so many were getting degrees without ever understanding the basis upon which this science that they were about to practice was formed, and without which, it cannot exist. The field doctors supported and encouraged these students, hoping to get the Philosophy, the life-blood flowing thru the whole profession and its patients. This has been our function and purpose, and will be in the future.

THE EDITORS

B. J. Palmer, the founder of modern chiropractic theory.

DIVINE LIGHT MISSION CLUB

Members of the Divine Light Mission Club serve the Palmer community and Davenport area by giving freely of their time and energy to support the D. L. Food Co-op which provides natural food at reasonable prices. The object of Divine Light is greater attunement with the Innate Intelligence of the Universe. The Mission is an international organization with over 7,000,000 members throughout the world.

California Chiropractic Information Bureau has long been one of the more active clubs on campus, and has the potential of being one of the largest, with an excess of 200 Californians now attending Palmer.

The organization serves the California student as a nucleus for California-related functions and activities. It has been instrumental in the organization and development of programs that benefit not only the California Chiropractic student, but also the student body at large.

Our California Chiropractic Information Bureau wishes to extend to you, the Chiropractic student, an invitation to join us, "the state that knows how", California, and share our enthusiasm and dedication to the philosophy, the science, and the art of Chiropractic.

ALABAMA CLUB

TOP TO BOTTOM AND L TO R: Roger Ingram, Wade Curry, James Johnson, Tom Caldwell, John Wallace, Kenneth Jones (Treasurer) David Below, Jackie Langston (Secretary), Jerry Combs (Vice President), Gene Long, Ron Wheeler, Leona Long (Faculty Advisor), Davis Baines (President), Larry Wiggins, Cary Camp, Frank Harris. Not pictured: Tom Fontes, Clyde Fontes, Jim Garvin, Mike Cinader, Stephen Baird, Rick Jones, Don Hudson, and Mike Carroll, John Pennington.

From the Heart of Dixie--true rebels seceding from the union "The Union of Drugs". We stand for, will fight for, and settle for no less than the union of Chiropractic.

The Alabama Club was reorganized in 1972. The object of this club organization shall be to provide representation of the club to the Alabama Chiropractic's Association and to the Administration and the Student Council and to provide for the General Academic and social welfare of the club.

"IF WE CAN DO NO GOOD, WE SHALL DO NO HARM".

FRENCH CLUB

STANDING (L TO R): Philippe Darling, Jean Claude Louvet, Andre Tiennebrune, Monique Chardounaux, Francis Jehl. SITTING ON CHAIRS: Jean Francois Garrigues, Daniel Raffine, Jean Jacques Chatrousse, Pierre Puy, Gilles Cordier, Jean Bernard Lanteri, Richard Castellani. SITTING ON GROUND: Catherine Manasson, Christine Chatrousse, Daniel Bertamini, Anne Marie Pelloux, Andree Lanteri, Claudette Castellani.

NEW ZEALAND CLUB

With some thirty members, the New Zealand Club represents one of the largest foreign student organizations on campus. Considering how small a country New Zealand is, with a population of less than three million, this is a fair indication of the inroads chiropractic has made there.

Individually involved in a wide range of campus activities from Rugby, Toastmasters, soccer, and various fraternities, members get together as a group several times a year for social functions, inter-club sporting

events, and to welcome and bid farewell to other New Zealanders.

The Club serves an educational purpose as well by keeping members informed of chiropractic and general interest events at home. It maintains a close liaison with the New Zealand Chiropractors' Association, thus helping prepare graduating students for the board examinations which must be taken in ethics and jurisprudence, philosophy, technique, and X-ray.

BACK ROW (L TO R): Gerald Polino, John Close, Peter Flett, Jeremy Dive, Barry Lewis, Bill Tomlin, Rob Timbs, Steve Curry, Paul McCormick, Mark Postles, Colin Owens, Wayne Chambers, Alistair Macauley, Jim Burt, Clayton Thomsen, Mel Skilton, Bob Richmond. Absent: Pam Forno, Chris Forno.

VIRGINIA CLUB

Since our formation in January, 1973, we have been very active. We have run a survey for and donated to the library, participated in the National Rugby Tournament, PCC Homecoming, and established

a Scholarship. The VC was awarded the rank of official VCA Auxillary during the Sept. State Convention. We have developed a working liaison between the student, the col-

lege, and the state. With several VCA members visiting our club, this has been a fruitful year. Most important, four new Chiropractors have come to Virginia.

BACK ROW: C. Petersen, J. Willis, D. Panstian, P. Cronk, D. Schroeder, C. Schroeder, F. Tate. FRONT ROW: R. Love, J. Birdwell, C. Burkert.

"V" FOR VIRGINIA?

NEW MEXICO CLUB

LEFT TO RIGHT: Cindy McKelvie, Kent Hilliard, Troy Tatum, Judy Tatum, Larry Waldrup, Cathy Riekeman, Don Mitchell, Dorthea Carter, Marjorie Pershing (Fifth President), Charles Ray Walters, Don Darling.

New Mexico, the land of many facets, the land of sunshine and azure blue skies, the land of ski slopes and virgin forests, invites you to visit. Come see the desert with its colorful cactus and mesquite bushes, the Llano Estacado plains with its oil wells and miles of gamma grass for grazing cattle and the high country with its majestic snow capped mountains, pine trees, and mining industry. This is home for three cultures, the Spanish, the Indian, and the Anglo as well as the numerous game animals and birds who populate the state. The fifth largest state in the union has an average altitude of 5,700 feet and is "air conditioned by nature", with the lowest humidity, consistently, of all the states. It boasts the highest golf course and horse track in the world and is the only state to have two official languages. The capitol, Santa Fe, was founded in 1610, ten years before the pilgrims landed.

The Chiropractic Board of Examiners, consisting of Drs. Geo. Cornali, Chairman, D. G. Morrison, Sec'y., and A. C. Bindel, Member, examine candidates in October and April. New Mexico accepts the National Board and will reciprocate with states having similar requirements. There are at present 195 practicing Chiropractors in the state.

You are invited to New Mexico, truly the "Land of Enchantment".

THE NORWEGIAN CLUB

FRONT ROW (L TO R)

Gunnar Sveindal, Petter
Gran, Are Haus.

The Norwegian Club was founded in January 1965. It is a subdivision of ANSA (Association of Norwegian Students Abroad). At present, it has 13 members. There are approximately 45 practicing Chiropractors in Norway today, 90% of whom are Palmer graduates. The Norwegian Club's faculty advisor is Dr. Kenneth Cronk.

Davenport Toastmasters host annual humorous speech contest. L. TO R. Fred Shaft, Dr. James Musick, Mayor Katherine Kirschbaum, Gerald Covey.

SPORTS

THE GAME

Rugby is a fast and furious running, passing, kicking game played by teams of 15 men who wear no protective clothing, even though the contact is at least equal of gridiron football. Substitutions are not allowed during a game, even for injuries. The game is controlled by one referee and two line umpires.

The PCC Ruggers draw their players from several states as well as from foreign countries including New Zealand, South Africa, and Australia where Rugby is more of a national sport.

RUGBY CHEERLEADERS, TOP: Glenda Nelson, BOTTOM: Marilyn Elliot. L. TO R: Pat Rowe and Lin Chicoine.

PCC RUGGERS

From humble beginnings in the early 1960's, Rugby at Palmer College has improved over the last decade to such an extent that for the past two years the Ruggers have captured the U. S. National Collegiate Rugby Championship. This is no small feat considering the number of colleges in the U. S. playing Rugby today. Palmer easily qualifies as one of the smallest--if not THE smallest of them.

Thanks to Palmer starting Rugby in the Quad Cities, three clubs are now organized in this immediate vicinity. One thing is for sure--Rugby is at Palmer to stay!

PCC NATIONAL CHAMPIONSHIP RUGBY TEAM

STANDING (L TO R): Greg Jones, Dr. Homer Adams (Team Doctor), Barry Kinsel, Art Durham, Mike Carroll, Bruce Adam (Captain), Bob Richmond, Grant Ray, Mike Lynch, Athol McLean, Dr. Arthur Kramer (Manager).
FRONT ROW: Steve Curry, Lew Mullen, Colin Bertram, Robin Taylor, Peter Flett (Coach), Brian Kelly.

Captain, Bruce Adam, accepts Nat'l Championship trophy from Dr. George Banks.

The 1973 U.S. National Collegiate Rugby Championship was held May 5 and 6 at the Mississippi Valley Fairgrounds, Davenport. The PCC Rugby Organizations, with help from several student clubs on campus, made this a memorable weekend for all involved.

Although the weather throughout the tournament was less than brilliant, it fortunately had no effect on the quality of Rugby produced during the two day event. Teams from all over the country traveled thousands of miles to the tournament to help make it a success.

In the first game, Palmer defeated tough Wisconsin State with good teamwork. On the local scene, St. Ambrose was next to fall victim to the strong Palmer side. In the final game against the University of Illinois, both teams adapted their style to suit the atrocious conditions and present an exciting game which included several gusty goal line stands.

As the Championship ended, PCC was cheered from the field by hundreds of enthusiastic supporters--a well-deserved finale for the country's Number ONE team.

SOCCER

BACK ROW (L TO R): Jean Jacques Chatrousse, Oivind Evensen, Karl Erkisen, Leif Aaroe, Are Haus, Jean Francois Garrigues, Gunnar Svindal. FRONT ROW: Lubos Edwarko, Colin Owens, Daniele Bertanini, Rob Timbs, Pat Glynn, Galen Politis.

The Palmer Soccer Team was inaugurated in September, 1962. After playing two friendly games with local teams and winning them handsomely, they joined the Upper Mississippi Valley Soccer League 'B' Division.

Palmer played each team in the division twice and won every game easily, thus receiving the championship. At the end of the season, a knockout competition was held with both 'A' and 'B' division teams. The most formidable opposition was the Univ. of Iowa team which had won the 'A' Championship and the knockout the previous year. The inevitable came when Palmer met the Iowa team in the semi-final and managed to scrape home two goals to one.

The 1973-74 season looks like an even better one already!

— LOOK to ICA —

As an ICA Member I know my Association:

Provides financial assistance, through membership dues, to chiropractic colleges.

Offers professional and financial support to an independent Chiropractic Research project.

Provides thousands of dollars a year in scholarship funds through student ICA organizations.

Provides for student representation to the ICA Representatives Assembly.

Offers:

- a. Hospital Indemnity Insurance
 - b. Major Medical Insurance
 - c. Life Insurance
 - d. Disability Insurance
 - e. "Loss of Hands" Insurance
 - f. \$1,000,000 Umbrella Policy.
 - g. Retirement Program
- Student members eligible for a, b, & c.

Provides the following publications: The International Review of Chiropractic, Newsletter, Action Memo, Legal Bulletin, and special reports.

Provides opportunities to advertise for used equipment, practices for sale, etc. in the ICA Review.

Provides a master file of examination review materials.

Provides information on all state chiropractic and basic science boards including dates of examinations, and names and addresses of Board Secretaries.

Provides information on the National Board of Chiropractic Examiners.

Makes available King Koil Spinal Guard bedding, endorsed by ICA's Posture Committee, at 1/2 price.

Makes available, at special rates tape recorders and anatomy charts.

Provides free admittance for student members to ICA conventions.

Provides PDR's (Physician's Desk References), a guide to currently used drugs, their side effects and contraindications, at special rates.

Provides immediate information on the status and meaning of legislation affecting chiropractic.

Fosters inclusion of chiropractic services in state and national legislative programs, such as Medicaid, Medicare, National Health Insurance, Insurance Equality and numerous others.

Offers bi-monthly regional Seminar-Workshops on subjects of timely interest.

Provides legal assistance in the processing of Insurance Claims.

Provides Liaison with insurance companies and labor organizations through professional consulting staffs.

Negotiates labor contracts to include chiropractic care and offers information on Workmen's Compensation.

Includes legal assistance for malpractice suits, for basic science fairnesses, and for legislative drafting.

Provides Malpractice coverage ranging from \$10,000 to \$5,000,000.

Provides practice and profession-building materials, such as newspaper ads, radio and TV materials, brochures, posters, billboards, news releases and many more.

And provides me with an equal vote, the right to run and hold office, or to be represented by a Representative Assemblyman.

SATISFIED?

COMMENTS FROM DISTINGUISHED COLLEAGUES TELL THE STORY!

SIGAFOOSE THE GREAT - "We have all three programs and they do a fine job of educating."

DR. LLOYD LATCH, - San Francisco, CA - "At the Latch Chiropractic offices we have found that the Mini-Comms and the Chiropractic Education Programs have helped us to more effectively 'seal-in' our patients to Chiropractic."

DR. IAN A. GRASSAM, Garden City, Michigan - "In a high volume practice such as we run, between 11 and 12 hundred office visits per week, it is essential to have a strong patient education program."

We have since opened a new office and have built in two audio-visual rooms in which we run the Mini-Comm programs continuously for all our new patients and health maintenance patients and their families. This has been a great source of new patients. We now average between 150 and 200 new patients per month. A great deal of credit must be given to the Mini-Comm program.

In the world of sophisticated communication, the Mini-Comm Chiropractic Program is second to none and we highly recommend it for all Chiropractors who want to practice and teach Chiropractic principles to the world."

T. V. HAS PROVEN AUDIO-VISUAL IS THE MOST SOPHISTICATED COMMUNICATION MEDIUM

Specific Programs developed to EDUCATE and INDOCTRINATE EVERYONE who will LOOK and LISTEN. All programs available in English, Spanish and Canadian - French.

THE PROGRAMS

Number One-"Effective Hands," an affirmative introduction to Chiropractic for both new and old patients.

Number Two-"Chiropractic, The Master Key To Health," this is the KEYNOTE program which provides reassuring answers to the "Tell me Doctor. . ." questions which the patients ask.

Number Three-"Health Insurance," a definitive presentation of the merits of health insurance, available only through consistent Chiropractic care, as opposed to drug-oriented medical insurance.

These programs can be viewed individually or in groups, one program at a time or all three in continuous run format, in the La Belle Mini-Comms, or in 35 mm. slide sets in your own projector with Cassette tape.

The Light of Knowledge

CONGRATULATIONS to you upon your graduation! Our best wishes go with you as you embark upon your chosen profession.

YOU HAVE, indeed, selected well and wisely your life work. In the entire realm of endeavor there are few callings that offer such opportunities for helping your fellow men.

THE KNOWLEDGE that you bring with you into your new profession will enable you to bring comfort and relief to many and aside from the deep spiritual satisfaction this will bring you, there will be the material reward that follows a successful practice.

FOR OVER a quarter century Vitaminerals has devoted its services and its products to aid the newcomer as well as the old established practitioner in the art of healing.

WE HOPE you will feel free to call upon us for any services or information we can give. In the meantime meet your Vitaminerals Distributor. He is our Field Technician whose knowledge of modern clinical nutrition is deep and authoritative and he will gladly place it at your disposal. He is a good man to know.

*We want our customers
to think of JC Penney as a
store with quality, service,
dependability . . . and just an all
around friendly place to shop . . .*

that's why we are proud to serve the
Q-city area at the new, big JC Penney
store at the northpark shopping center in
Davenport.

Palmer College Alumni

Clubs of Honor & Support

FOUNTAINHEAD AWARD

It is recognition for distinguished alumni who pledge \$1,000 or more each year. It honors them in a distinctive manner including waiving of all fees for college programs, an unusually significant memento for the office, and a position on the exclusive Fountainhead Award Honor Roll.

HERITAGE CIRCLE

A pledge of \$500 or more will be recognized as a "Heritage Circle" membership. You will receive a Tri-Giving Award . . . You will be given recognition at Homecoming, and all your registration fees for campus activities will be waived, courtesy of the college.

CENTURY CLUB

You can join this exclusive group of Palmer College of Chiropractic supporters with a pledge of \$100 to \$499. As a Century Club member, you will be publicly recognized at Homecoming and will be the guest of the college at a number of special events throughout the year.

SUSTAINING DONOR

A pledge of any amount to \$99 will place your name on the Palmer College of Chiropractic Alumni Honor Roll which will be distributed at Homecoming.

FAIR SHARE

Especially for the recent graduate, a pledge of \$10 for each year you have been in practice. Your name on the Palmer College of Chiropractic Alumni Honor Roll distributed at Homecoming.

An exciting group is the Ambassadors of Palmer College of Chiropractic. Ambassadors are students, recruiters, men and women in the field, dedicated to the college and proving it by sending future Chiropractors to PCC.
